

Public Land Mobile Network (PLMN)

A PLMN is a mobile network operated by a provider to offer public cellular services, such as calls, messaging and mobile data.

Simplified connection path. The public internet is outside the PLMN boundary.

PLMN identity

PLMN identity = MCC + MNC

MCC = Mobile Country Code · 3 digits

MNC = Mobile Network Code · 2 or 3 digits

Home & visited networks

Home PLMN: the subscriber's home operator.

Visited PLMN: another operator used when roaming.

Roaming is subject to operator agreements.

What it provides

Voice calls

Make and receive phone calls.

SMS

Send and receive text messages.

Mobile data

Access the internet on the move.

Remember PLMN identifies the operator network — not a phone number or a single tower.
